

## CASE STUDY: ALTA BATES SUMMIT MEDICAL CENTER (ABMSC)

### Project Overview

Alta Bates Summit Medical Center (ABSMC), located in Berkeley and Oakland, California, is comprised of three hospitals and is the biggest within the Sutter Health network. ABSMC's in-house engineering team maintains its own steam, domestic hot water & heating hot water production while being the only in-house team maintaining, operating, disinfecting, & repairing the RO water. Thermaxx conducted an energy audit for five mechanical rooms

### PROJECT HIGHLIGHTS

**Serviceable Insulation Jackets Installed:** 130      **Straight Pipe Installation Installed:** 344 Linear Feet

**Savings – Energy:** Over 33,000 Therms per year      **Dollars:** \$41,000

**ROI Payback Period:** 18 Months\*      **PG&E Incentive:** \$41,000

### WHY CHOOSE THERMAXX?

- Inspect & maintain components, plus easily reinsulate them yourself.
- Protect expensive equipment.
- MAXXimize utility incentives. We know the rebates at *your* utility & will help you find the best ones.
- Save time with our turn-key implementation.
- Receive full visibility of all insulated components with our app, Slates, & digital tools.
- Rest assured with a 5-year warranty.

Don't wait! Schedule your facility's energy audit and  
start saving on your energy bill TODAY!
